Transitional Residence for Families

Kindred Spirit assists mothers, fathers, and families whose child or children are in the care of the Ministry of Social Services or who are at risk of having their child or children being placed into care. The goal of Kindred Spirit is to support families so that they can remain together and live independently.

We foster an atmosphere that promotes learning basic life skills, budgeting, hygiene, nutrition, and healthy lifestyles. This atmosphere also creates a positive, nurturing environment for children and their parents. There is a cooperative living environment among individuals and staff; parents and children in the Kindred Spirit program live in their own apartment in our facility with other families in the program.

Kindred Spirit offers in-home programming and connects clients to community resources. Our programs and referrals focus on healthy lifestyles and relationships, positive parenting, life skills, addictions, anger management, mental health, recreational activities, and more. Parents are provided with individual case-management to ensure their goals, priorities, and expectations are met. Kindred Spirit creates a stable and supportive living environment to encourage positive changes for parents to assist them to keep their children from the care of the Ministry of Social Services.

We recognize that by providing supportive housing for mothers, fathers, and their children, we are consciously working on the well-being of the community.

Our Program

Referrals must be made through the Ministry of Social Services or can be placed by the Mobile Crisis Unit in an emergency. Interested individuals should speak with their Family Service Worker through the Ministry of Social Services to request a referral to Kindred Spirit.

Kindred Spirit Provides:

- Twenty-four hour staffing.
- Common areas for families to connect with other families and staff.
- Personalized case management plans.
- Child care and educational programs.
- Medication lock-up.
- In-house programming for budgeting, parenting, life skills, addictions, and more.
- A culturally-sensitive environment.
